VOLUME XXI. NUMBER 5.

THE NEWS OF THE WEEK.

A Daily Resume of Important Happenings.

Writing of the recent exposure
in which it was shown that the big
life insurance companies had con-
tributed immense sums to the Re-
publican National Campaign fund, Mr.
Watterson has the following:
Not a bit of party gain can be
made by Democrats of this transac-
tion. They may say "I told you
so," and prove it. But, the end
will be speedy oblivion, more money
in elections, politics the same,
old suppression of the good and
development of the bad, and all for
the benefit of gamblers and trick-
sters, playing upon the credulity and
profiting off the sacrifices of the
great body of the people.

Washington, D. C., Sept. 21.—(Hearst
R. Prewitt, State Insurance Commis-
sioner of Kentucky, who is here on
his way to New Hampshire to attend
the annual convention of State In-
surance Commissioners, said that he
does not consider Federal supervision
of life insurance either practicable
or desirable. If the State officials
in the various commonwealths, whose
business it is to watch over the
companies, are alert and alive there
will be no need of Federal supervi-
sion, he thinks.

Mr. Prewitt said Judge Paynter is
a sure winner in the Senatorial race.

Washington, D. C., Sept. 25.—Presi-
dent Roosevelt's trip through the
South the latter half of October
will not be merely to see and be
seen. It will have a distinct tinge
of Roosevelt politics. At least that
is the impression that is just now
growing here and eliciting lively an-
ticipations. In short, it is believed
that Mr. Roosevelt will in his brief
sojourn take the high ground of the
national welfare and appeal to the
South for effort upon the Representa-
tives touching Southern interests.
In backing him in several of his pol-
icies, notably, railway rate legisla-
tion, ratification of the agreement
with San Domingo, defense of the
Panama canal, passage of legislation
for the Philippines, to be recommended
by Secretary Taft, and other
vital subjects.

It is believed that the President
realizing that he will need Democratic
as well as Republican votes to
sustain him, will try to make it plain
to Southerners that he will proceed
on broad, unpartisan principles, and
that it will effectively create a
sentiment as considerable in its support
of the Administration that only the
most Bourbon of Democrats from
Southern States in Congress would
vote against him. Moreover, it is said
to be the cherished dream of the
President that this style of appeal
to Dixie shall serve to unite the
country as it has never been and thus
his Administration with the triumph
of a genuine national patriotism of
which he would be the central heroic
figure.

Some idea of the size of the or-
ange crop of California can be ob-
tained by reading the following:
According to reports of traffic
officials of the Atchison, Topeka and
Santa Fe and the Southern Pacific
the number of cars of orange-
fruit sent East during the season just
closed was 29,000. This includes ship-
ments from Butte county and the
San Joaquin section, as well as from
Southern California, the bulk, how-
ever, coming from the latter section.
All shipments are included that went
out of the State by rail. In these
29,000 cars there were 10,985,000 boxes.
The total value of the ship-
ments was approximately \$22,225,000.
Of this amount it is figured that the
orange growers and shippers got
\$11,500,000. The remainder, or 10,725,000,
went to the railroads and re-
frigerator lines for freight and
icing charges.

Concerning some of our mountain
preachers at the General Conference
of the Christian Church at Mayville
held last week, a city paper has the
following:

The addresses of Roscoe Vanover,
of Pikeville, and S. J. Shaw, of
Palmville, aroused renewed interest
in the Christian mountain workers.
Over \$4,000 was subscribed to build
a new dormitory to the school at
Morehead, which, together with the
school at Hazel Green, is doing ex-
cellent work.

Owing to the cry of machine rule
in West Virginia, coupled with the
attitude of the Civil Service Com-
mission, the Federal office-holders,
to that State, in line with their Ken-
tucky brothers, will, this week resign
from the political committees of which
they are members.

London, Ky., Oct. 1.—The annual

which is in session here, is being at-
tended by a larger number of dele-

bled on a similar occasion before in

pany, the return of the contribution
made to the Republican campaign
fund.

Schools in several places in Cen-
tral Kentucky have been closed on
account of the prevalence of diphe-
theria.

A loss of \$20,000 resulted from a
fire which broke out shortly after
12 o'clock last night. The fire start-
ed in the second story of the build-
ing occupied by A. Goodman & Co.,
at the corner of Third-ave and Logan
street, and completely destroyed that
building and part of the stock, also
the adjoining building occupied by
the Hubbard Pharmacy, most of the
stock in which was carried out.

Both of the buildings were owned
by Dr. S. J. Tabor and Wm. Brownson
who recently purchased the property
for the consideration of \$15,000, and
covered by \$3,500 insurance.—Will-
iamson paper.

An exchange advises the turkey
raisers to sell early. There is more
money for the farmers by selling
now than in holding later. Gov-
ernment reports show a big crop of
turkeys in the West, which is bound
to hammer down prices at the final
close of the season.

Within less than one year Lexing-
ton expects to have an ample supply
of natural gas from the Mesifree com-
pany gas wells for all needs of resi-
dences and manufactories.

Mr. Sterling, Ky., Oct. 2.—The Mont-
gomery county tobacco crop has
been out and housed, and indications
point to a far greater yield than
was expected. The entire crop will
amount to about 2,500,000 pounds. The
yield has been cured out with a very
bright color and is of greater weight,
caused by the heavy dew.

"The reptile press," says the Loui-
sville Herald, "cannot live without
both feed deep in the trough of
uncivilized loquacity."

Barbourville, Ky., Oct. 2.—James Sal-
ter, who is alleged to have killed

dle fork, Leslie county, four years
ago, has been apprehended in Vir-
ginia. Officers will take him to Hy-
denville, the county seat of Leslie coun-
ty, to-day, where his examining trial
will be held.

Judge Denton, in the Clark Circuit
Court, refused to grant a new
trial to R. F. French, who was fined
\$5,000 for alleged enticing away of
witnesses in the damage suit of Mrs.
James B. Marcum for the murder of
her husband.

Senator John T. Morgan, of Ala-
bama, has written a pointed letter
to Chairman Shantz, declining an in-
vitation to join the advisory board of
engineers on the trip to the Panama
canal zone. Senator Morgan ex-
presses the opinion that the trip will
be a failure and, incidentally, expresses
a doubt as to the success of the
entire canal project.

to act as toastmaster at the ban-

charge of false swearing in a civil
suit.

The Harrison County Democratic
committee has demanded of E. K.
Renaker that he withdraw as a can-
didate for State Senator from the
district comprising Nicholas, Rob-

asserting that he will not withdraw.

A woman, the thirteenth child and
born in the thirteenth day of the
month, recently died in Arkansas at
the age of 165. How she could ex-
pect to live much longer with such
a hoodoo hanging to her is past find-
ing out.

Winchester, Ky., Sept. 29.—James
Hargis was acquitted yesterday of
the charge of contempt of court, the
jury being out only fifteen minutes.
The charge against Hargis, broadly
speaking alleged the same grounds
as those on which B. F. French was
found guilty and fined \$5,000, namely,
that he had been instrumental in
inducing witnesses to absent them-
selves during the trial of the dam-
age suit of Mrs. Marcum. Wonder
if Hargis is still of the opinion that
he can not get a fair trial before

Incipient consumption is cured by

not hold out false hopes to con-
sumptives by claiming that it will
cure this disease in the advanced
stages; but if the lungs are not too
far gone Foley's Honey and Tar
will effect a cure, as it soothes the
irritated cough and soothes the in-
flamed air passages, giving them a
chance to heal, and even in the ad-
vanced stages it always gives com-
fort and relief. A. A. Herron, of

Mr. Schiff says that the corruption in the Equitable "was all Hyde." In that case, the general disposition will be to include the horns, hoofs and tail with the Hyde.

Mrs. Lackey's administration as Supt. of Schools has shown her to be specially fitted for the place. She strives to raise the standard of education, and this means a higher standard of morals, intelligence and citizenship.

Secretary of the treasury Leslie M. Shaw will leave the Cabinet February 1, 1906. He makes the definite announcement in a letter to the Polk County Republican Club.

Mr. Shaw will then begin his Presidential campaign among his friends.

Chicago, Sept. 20.—It has been decided by the physicians in attendance upon President Harper, of Chicago University, of Chicago, that nothing will save his life but a surgical operation of heroic character. It is admitted that there is practically no chance of saving his life unless the cancer which is killing him can be checked by the removal of a portion of the large intestine.

In electing W. D. O'Neal for County Attorney, you have the satisfaction of knowing that you will have constantly on duty an able guardian of your interests as a citizen and as a taxpayer. He is sober, conscientious, fearless. In short, he is just such a man as every good citizen should want in that important position, regardless of whether his name appears on the ballot under the rooster or under the cabin.

All honor to the editor of the weekly newspaper. He is the man who has time to get near to the heart of the people. He meets the men and women of all classes and learns of the aspirations of the people at first hand. He goes to the fairs and races and church doings, and he gets his inspiration from unpolluted sources. He is better able to reflect the sentiment of the people than the man who is forced by circumstances, to sit all day in a dingy office in a high building to fill a daily paper. The country newspaper man is the real agent of the people. What he writes is from the heart. All honor to him.—Chicago National Review.

For Lung Troubles

Ayer's Cherry Pectoral certainly cures coughs, colds, bronchitis, consumption. And it certainly strengthens weak throats and weak lungs. There can be no mistake about this. You know it is true. And your own doctor will say so.

"My little boy had a terrible cough. I tried everything I could hear of but he was still coughing. I tried Ayer's Cherry Pectoral. The first night he was better, and he steadily improved until he was perfectly well."—Miss S. J. WELLS, ALTON, ILL.

Dr. Watson as State Senator, would mean that this section would have a bearing at Frankfort on whatever it may rightfully demand, and that the hearing would be backed by a forceful and successful advocate.

Vote for Burns for Sheriff and have the business of the office done in a satisfactory manner. To be a good Sheriff, a man should have energy, good business capacity, education, experience, honesty, sobriety and the strictest integrity.

Candidates Woods, Skeens and Hays have all been tried in the respective positions for which they are asking to be re-elected and the people are apparently satisfied with them. Reports say they are running away ahead of the bounds.

L. F. Zerfoss, of Ashland, has been nominated by the Democrats of Boyd and Lawrence counties for the Legislature. Mr. W. M. Fulkerson, of this place, decided to not allow his name to go before the district convention. Mr. Zerfoss is one of Ashland's best lawyers, and is a rober, energetic, able gentleman. He would honor the district as our representative at Frankfort. Vote for him regardless of politics.

A special to the Courier-Journal from Catlettsburg tells of the "unanimous" nomination of one man to the state senate from Boyd and Lawrence counties and the "unanimous" nomination of another to the lower house from the Ninety-eight legislative district, and the special adds: "Both nominees are for Judge Paynter for United States Senator." Sure! It is easy enough to get unanimous nominations in districts that are hopelessly Republican, but the object of the Courier-Journal's special was to make people down this way believe Paynter is running like wildfire in the mountains. We next look for the news of the "unanimous" nomination of a Paynter man in Pulaski county, where the Republican majority is 2,100.—Owensboro Messenger.

The NEWS knows of no better man for the United States Senate than Judge Paynter, and it does not consider these Legislative and Senatorial Districts "hopelessly" Republican.

Prof. O. G. Grady, superintendent of the Ceresco schools, is in the midst of much trouble in his school work just now. Prof. Grady had occasion to chastise some boys under him, and the evening following one of the indignant fathers met him, knocked him down several times, and kicked and beat him unmercifully. Public feeling is at fever heat, and the people are all arrayed either for or against the Superintendent. Sensational developments may follow.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed, none cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous lining.

We will give One Hundred Dollars for any cases of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular.

Bridge Piers Completed.

T. H. Roberts & Co., have completed the work of building the piers and pedestals for the Louisa & Fort Gay Bridge. The work is first class in every particular, and although it was predicted by many that the contractors would lose money on the work at the price at which it was taken, they have come out with a reasonable profit. The requirements of the bridge company's excellent and capable engineer, Mr. Mason, have been met in every particular. The work speaks well for all connected with it.

Messrs. Roberts & Co., are well able to handle both concrete and stone work and are equipped with an excellent plant for doing so. The Louisa people hope to see these contractors do as well or better wherever they may go as they have on the work at this place, and along the C. & O. railroad.

State Convention.

The State Development Convention to be held in Louisville beginning next Tuesday will be a very interesting and important meeting. It will be presided over by Governor Beckham, who will deliver an address on Subjects of vital interest to Kentucky will be discussed by representative men of the State. Such topics as Kentucky to the Front; Immigration of the High Class; Railroads as Development; Labor, Love and a Living; Making Kentucky known; The Business of Oil Development; The Need of Good Roads in Kentucky; and other subjects in which the people of this great State of ours are deeply concerned.

This end of the State will be represented by such men as J. C. C. Mayo, Col. Jay H. Northup and Col. Douglass Putnam. Col. Northup will speak of the need of good roads in Kentucky, and what he says will be listened to and have weight. This Convention will be strictly business. It is not intended as a junket or a frolic, but as a means of bringing the business men and capitalists of the State together for the discussion of matters of State interest, and also to bring to the Convention men from other sections and to have them give us the benefit of their knowledge and experience.

Registration.

Registration day, Tuesday, passed off quietly and with no unusual demonstration. At the lower precinct voters registered at the City Building, the usual voting place, and 105 persons registered. At the Court House 56 voters were registered. Most of these registering declared a political affiliation of some sort, some declining to state what party they belonged to. The registration at both precincts are considered satisfactory.

Lucien Ricketts, of Guyandotte, was here a day or two last week, calling on his friends of "before and during" of the war. There may have been younger Confederate soldiers than Mr. Ricketts, but they were few. At the early age of four, he ran away from home and joined the 5th Virginia Infantry, then commanded by Col. afterwards General, Jenkins. The boy's father followed him, but was persuaded to allow him to stay with the soldiers. And away he did until the close of the war. Mr. Ricketts married Miss Fannie Miller, a cousin of Dr. J. C. Bussey, and is a nephew of Mrs. Laban T. Moore.

The first meeting of the Lawrence County Teachers Association was held at the public school building in Louisa last Saturday. The attendance of both the public and teachers was very gratifying, and the exercises of the meeting were exceedingly interesting. The published program was followed and was participated in with enthusiasm.

A gang of Italians near Russell had long been suspected of operating a blind tiger, but suspecting and catching were two entirely different matters. Deputy U. S. Marshal Tom Salter was down there the other day, and he concluded to see what could be done. Going to the place where he thought he heard the tiger growl he found it full of men. He demanded admittance, and upon being refused he knocked the door down and succeeded in capturing one of the gang Salvatore Marrama, 30 words to that effect. Salvatore was taken before Commissioner Tinsley, at Catlettsburg, and held for trial.

Lovers of magnificent pulpit oratory have a treat in store for them. Rt. Rev. Lewis W. Burton, Episcopal Bishop of Kentucky, will visit the Big Sandy valley the second week in November, stopping at Louisa, Paintsville, Prestonsburg and Pikeville. Bishop Burton is one of the most eloquent and cultured men in Kentucky, ranking very high as a pulpit orator, and is a thorough Christian gentleman. The exact date of his trip up the valley will be announced in due time.

A fast train will be put in service on the C. & O. railroad next spring according to statements made by President Stevens on his recent trip over the road. The new train will leave Washington in the evening, and will reach Ashland about 9 o'clock the following morning. The 9 o'clock train will be the fastest on the road, and the number of stops will be materially reduced. Returning the train will leave Cincinnati in the evening, arriving at Ashland about 9 o'clock.

When you want an easy shave or neat hair-cut, call on Bascom Hale. A first-class bathroom is in operation in connection with the shop. Porcelain bathtub, instantaneous water heater.

Our Public School.

It is exceedingly gratifying to our people to know that our public school is in such a satisfactory condition. There are now nearly three hundred pupils enrolled and the percentage of attendance is very large. There has been a steady increase in the number of pupils in all the rooms, of these nearly all attend regularly. In fact, absenteeism is complained of very little. There is but little looting about the depot and other public places, a marked and agreeable contrast with some former times. In placing credit where credit belongs it is only right to say that much of the improved conditions in school matters is due to the intelligent supervision of the principal, Mr. Throop. He is known and felt as the responsible head of the school, and knowing this himself he rises to the situation and acts accordingly. Let us go further and say that the teachers in the various rooms are doing excellent work and seem in harmony with the principal. And the trustees are not slack. The concerns of the school have their attention, and are properly managed. Parents and our people generally are apparently taking more interest in our school than they have taken in years past, sending their children more regularly and in every way showing that they are alive to the vital importance of an education. We hope that all this may continue and that the present may be the most successful year in the history of the Louisa Public Schools.

Fiscal Court.

The Lawrence Fiscal Court met last Tuesday and is still in session. The consideration of claims was the first business entered upon, after laying the levy at the rate as heretofore. An order was made to act upon the claims in the order in which they appeared on the docket. This rule was violated, however, a large number being "passed" and brought up again after the road and bridge fund was exhausted. According to the announcement made, the road and bridge fund for 1935 is already consumed, and those who were so situated as to have their claims "passed" must now wait until the fund of 1936 becomes available.

At his own request Revenue Agent L. T. McClure has been transferred from this district to the Cincinnati division, which is composed of Ohio, Indiana and part of Michigan. In his new field Mr. McClure's work will be similar to that performed by him in this section. He had been serving in the Cincinnati district before, and agent Bowen, the head of the division, was pleased with the manner in which the work was done. In his new field the most of Agent McClure's travel is by rail, doing away with the arduous horseback trips. His salary is also increased. This change is a distinct promotion for a very efficient Revenue officer. Mr. McClure is a man of undoubted courage and honesty, qualities essential in the make up of a man in his position.

We understand that the bags are at school at the Ohio University at Delaware, and that when they have finished the family will return to Louisa and make it their home.

In view of the fact that diphtheria is prevalent in the upper counties and seems to be coming this way, it is well to listen to a few hints regarding its prevention, leaving its treatment entirely to the medicine men. Throat and mouth cleanliness is the paramount precaution. Dirt invites contagion and infection. Keep a strong solution of water and chlorine. Use the listerine as a mouth and throat wash after each meal and at bedtime, and when there is the least suspicion or complaint of sore throat use the potent solution. Examine throat often, and on the first sign of blister send for a doctor and leave the rest to him and Providence.

Last Saturday afternoon little Jack Thomas received scores of his young friends in honor of the ninth anniversary of his birth. The beautiful home of Mr. and Mrs. Thomas is an ideal spot for the games and frolics of the lads and lassies, and they had a delightful time. Jack's guests testified by their appreciation of his hospitality by many presents and the hearty consumption of the toothsome refreshment for such occasion made and provided.

Council sat in regular session Tuesday night. Every claim against the City was paid. It was ordered that on the tenth of this month the paving of the fronts of lots heretofore ordered and not completed would be let to the lowest and best bidder. This indicates that there will be something doing.

Our line of fancy slippers and high grade shoes is complete. We carry all widths and sizes. Prompt attention to mail orders. Frost & Garred's Big New Store, 309 3rd Ave. Huntington, W. Va.

Last Monday Isaac Chambers, the 18 year old son of Wade Chambers, of Fallsburg, was brought before Judge Vinson and a jury and adjudged a lunatic. The boy is large and strong, and had lately developed very strong homicidal and incendiary tendencies. He was taken by the Sheriff to Lexington Asylum.

Mac Turner, of this place, now a student at the State College, covered himself with dust and glory in the football game played by his club last Saturday.

The October term of the Lawrence Fiscal Court began Tuesday and will probably last during the week. Out of a settlement with the sheriff's office no business except routine will be transacted. The usual batch of claims, big and little, will be presented. Judge R. F. Vinson is presiding.

Another Old Citizen Dead.

C. R. Wilson, better known as Ramsey Wilson, died in Louisa yesterday morning of consumption. He had been in bad health for a long time, but had been confined to bed only about a couple of weeks. The interment will occur this afternoon at one o'clock at the Fulkerson graveyard. Mr. Wilson was well known in this vicinity. He was the son of "Uncle" Charley Wilson, and was one of six brothers, two of whom are living. These are Mordell, of this place, and James, of Wayne county, W. Va. He had been married five times and leaves numerous children and grand-children. Mr. Wilson was a man of integrity and great personal courage. He was a private in the 14th Kentucky Infantry, serving through the war, and while a soldier received disabilities for which he drew quite a liberal pension. He was about 67 years of age and leaves a widow.

The Fair.

We hope the people will remember that the Lawrence County Fair begins next week and will continue two days, Friday and Saturday. This has been an abundant year and the exhibit of agricultural products at least should be large and attractive. But there is every reason for believing that the display throughout will be good. The premium list will be of the same general scope as that heretofore offered, but anyone having any article of unusual merit or beauty, in any line should not hesitate to enter it at the fair, and a class will be made for it.

There will be no exhibit of speed by horseflesh this year, but in order to add zest to the meeting there will be a mile race. Members of the order are barred. There will also be another and attractive feature and that will be a grand parade by the Junior Order of American Mechanics, in full regalia, headed for the Louisa Brass Band. The Fair may be another and attractive feature and that will be a grand parade by the Junior Order of American Mechanics, in full regalia, headed for the Louisa Brass Band. The Fair may be another and attractive feature and that will be a grand parade by the Junior Order of American Mechanics, in full regalia, headed for the Louisa Brass Band.

As an addition to the premium list of the Lawrence County Fair this year Mr. John McDyer, Boyd county's practical and efficient road supervisor, offers five dollars for the best specification for a "Stone Highway Culvert," same not to be written or dictated by a civil engineer. This is done to arouse interest in one of the most important subjects with which our people have to deal, and the interest he manifests in this matter is much appreciated here.

Rev. O. F. Williams, reappointed pastor of the M. E. Church South preached his first sermon of this Conference year last Sunday. He was greeted by a fair sized audience in the morning, and in the evening the church was crowded. The preacher showed in face and manner the mental and physical strain of the past several weeks caused by watching and waiting at the bedside of his now deceased father-in-law and of his desperately ill child. But at both services Mr. Williams spoke forcibly and feelingly and showed that his heart and spirit were willing and ready to go to the Louisa church and year with the Louisa church in one of earnest effort in the Master's cause.

Rev. Mr. Grizzle, of the M. E. Church, has been sent by his Bishop to serve the congregation at this place another year. He has returned from Conference, ready to resume his pastoral work. Mr. Grizzle was acceptable to this people and they are glad to have him again.

It should always be borne in mind by the captains of industry in the South that its greatest resource is the white man. This question should be the paramount one, rising in public estimation above all others and claiming the best thought and the most earnest efforts of the Southern people. No expense can be too great to accomplish this great end. Southern Farm Magazine.

Last Saturday night's rain was a welcome guest, and thanks to its dampening influence one can take a full breath without inhaling an acre, more or less, of real estate.
